PLANNED & REACTIVE MAINTENANCE

PROVIDING A PRACTICAL AND PROFESSIONAL SERVICE
NATIONWIDE

We cover every service that could help your business, from the initial blueprint stage through to day-to-day property maintenance and management.

Planned services are offered as a way of ensuring your company is protecting and maintaining its assets, from changing a light bulb to full estates management. Our reactive service deals with the jobs that cannot be foreseen, calling us to react to an unplanned situation. Pre agreed charge rates and response times are available along with key holding and 24/7 helpdesk.

Our headquarters are based in Stockport, Cheshire, with great access to all the main transportation networks. We have a fully equipped manufacturing workshop along with a dedicated and professional workforce with over 35 years experience within their rarified trades. 10 Tracked and monitored vehicles, all fitted with blue tooth connectivity so we have total control and communication at all times, ensuring accurate logistics nationwide.
